

The Kia EV6

Movement that inspires

Inspiring every journey.
The Kia EV6.

From its distinctive exterior and innovative interior design to its intuitive advanced technologies, the Kia EV6 is created to inspire you one very journey.

Movement that inspires.

More range. More time. More inspiration.

Inspiration isn't just about having an idea. It's about stepping out of your comfort zone and feeding your mind with new surroundings. That's why we designed the Kia EV6 - a car that, with its up to 644km range*, lets you explore more of what the world has to offer. Along with ultra-fast charging, you get more time to create something new.

The Kia EV6 also creates more time and space for you to bring your ideas to life. It takes less than 18 minutes to charge from 10 to 80%** so you can spend less time waiting and more time doing what matters most - like working on your next big idea.

* The range was determined according to the standardized EU measurement procedure (WLTP) based on 63 kWh battery pack, rear wheel drive, and 19" wheels (pictured vehicle features 20" wheels). The individual driving style and other factors, such as speed, outside temperature, topography and the use of electricity-consuming devices/units, have an influence on the real life range and can possibly reduce it.

** In order to achieve the maximum charging speed, EV6 must use an 800-volt electric vehicle charger that delivers 350 kW of electricity. Actual charging speed & charging time may be influenced by the battery temperature and exterior weather conditions.

Make every detail count.

When many small things come together in harmony, big ideas aren't far away. That's why the Kia EV6 makes every detail count through clever use of space and a smart exterior concept.

A new standard for sustainable mobility.

The interior is about creating the most user-centric and immersive experience through design, intuitive technologies and sustainable elements. When you're inside the Kia EV6, there's plenty of cabin space, so you can breathe freely while the vegan leather and recycled PET materials emphasize the car's sustainable nature.

An immersive journey for everyone.

The panoramic instrument display presents driver information in a wide, clear horizontal layout, while the intuitive touchscreen lets you easily switch between data, settings, and entertainment. A premium sound system completes the experience with immersive audio for every seat.

The Dual 12.3" Panoramic Curved Displays

Offers a truly immersive drive, with high-definition navigation and key info delivered through minimal controls for a clear, seamless experience.

Relaxation as a design objective.

With its flat floor and broad frame, the Kia EV6 gave our designers more freedom to prioritize your comfort. Compact yet supportive, the zero-gravity relaxation seats offer a wide range of settings to keep you at ease while charging. Because when you're relaxed, ideas flow better.

Relaxation Comfort Seats

Slimmer and more comfortable, the Kia EV6's front seats offer greater adjustability than ever. While charging, Relaxation seats let you recline to optimize posture and reduce pressure.

USB Charger on Seatbacks

Convenience matters for everyone. Rear passengers get seatback USB ports to charge devices anytime.

14-Speaker Meridian Premium Sound System

Delivers an immersive experience, wherever you sit or what you're listening to.

Powered Sunroof with Tilting

Airflow enhances the open feel. The Kia EV6's roomy interior expands with a wide tilt-sliding sunroof, maximizing light and fresh air.

Fingerprint Recognition System

Simply touch to unlock and start the vehicle, no keys required. This smart feature offers secure, personalized access while enhancing convenience and peace of mind every time you drive.

Forward Collision-Avoidance Assist with Junction Turning and Crossing (FCA)

Uses a front-view camera and radar to detect any vehicle, pedestrians or cyclists ahead. By warning and braking automatically, it can help you avoid, or reduce the severity of, an accident. The system also engages if you are crossing or turning at an intersection.

Blind-Spot Collision Avoidance Assist (BCA)

When you signal a lane change, you will be warned if a risk of collision with a vehicle is approaching from the rear is detected. If the risk persists and increases, BCA automatically controls the vehicle to help avoid a collision. If you are exiting a parallel parking spot and there is a risk of collision with an approaching vehicle, BCA automatically applies emergency braking.

Safe Exit Assist (SEA)

When the occupant opens the door to exit the vehicle after a stop, a warning sounds if an approaching vehicle from the rear side is detected. The function also helps keep the rear door closed with the electronic child lock.

Less time for worry, more time for inspiration.

Kia's DRIVE WISE applies to the latest Advanced Driver Assistance System (ADAS) technologies to help ensure the ultimate in occupant and pedestrian safety.

Our technology works to enhance your journey. To make it more enjoyable and relaxing.

Reinventing how we charge.

The Kia EV6 supports both 400V and 800V charging without an adapter, ensuring fast and flexible charging. Unlike conventional EVs, it also offers two-way charging—letting you power devices anywhere your journey takes you.

Electric Global Modular Platform (E-GMP)

The Kia EV6 is the first model built on Kia's all-new E-GMP platform. With its long wheelbase and flat floor, it unlocks new levels of comfort and interior versatility. The modular design enhances performance, safety, and maintenance while delivering greater power, extended range, and faster charging.

Charging Port

The charging port door opens and closes electronically, just press the door or use the dash button. A bar graph inside shows the current charge level.

Customize your distinctive style.

The Kia EV6 is available in a wide range of colours to fit your style, whether bold or subdued. And no matter which design you pick, the wheels not only look great but also provide added aerodynamics.

Exterior Body Colors

Yacht Blue (DU3)

Runway Red (CR5)

Snow White Pearl (SWP)

Ivory Silver Matte (ISM)

Wolf Gray (C7S)

Moonscape Matte (KLM)

Interstellar Gray (AGT)

Aurora Black Pearl (ABP)

Wheels

19" Alloy wheel
