LEAPMOTOR

TECHNOLOGY THAT FEELS EFFORTLESS

The Leapmotor B10 eSUV brings vehicle controls, entertainment and essential information together in one streamlined digital environment. From preparing the vehicle remotely to adjusting commonly used settings, every interaction is designed to be clear, responsive and easy to use.

One Interface, Simplified Control

Leapmotor OS 4.0 Plus consolidates key vehicle functions, entertainment and driving information within one intuitive interface.

Fast and Fluid Performance

Powered by the Qualcomm Snapdragon 8155 processor, the B10 delivers fast screen responses, smooth transitions and more seamless multitasking.

Ready Before You Step In

Use the Leapmotor App to check the battery and charging status, manage selected vehicle functions and prepare the cabin before your journey.

Your World In Sync

Apple CarPlay and Android Auto provide convenient access to compatible navigation, music, calls and messages through the central display.

PROTECTION BUILT INTO EVERY LEVEL

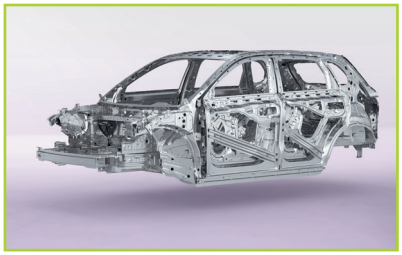

The Leapmotor B10 eSUV combines structural strength, intelligent driving support and active battery management to provide comprehensive protection for occupants, vehicle and battery.

Five-Star Euro NCAP Safety

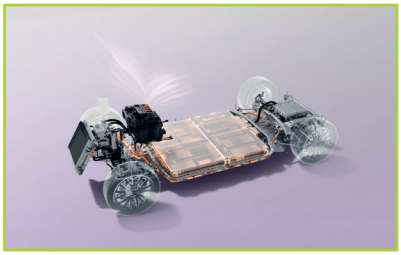

The Leapmotor B10 eSUV has earned Euro NCAP's highest five-star safety rating, achieving 93% of the maximum rating for both Adult and Child Occupant Protection in rigorous crash tests.

It also received full marks in lateral-impact testing, demonstrating excellent occupant protection in serious side collisions.

High-Rigidity Body Structure

With torsional rigidity of 36,360 Nm/degree, the B10's body helps maintain cabin integrity and manage impact forces during a collision.

Enhanced Surrounding Visibility

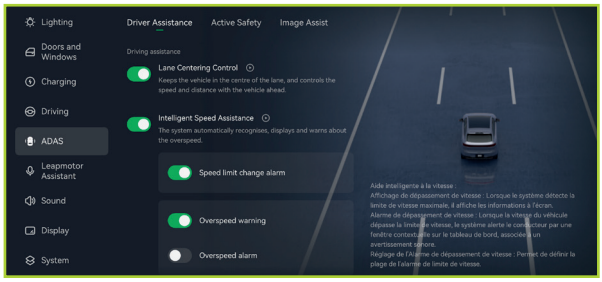

The 540-degree camera system provides visibility around and beneath the B10, helping you spot obstacles and park with greater confidence.

Intelligent Battery Management

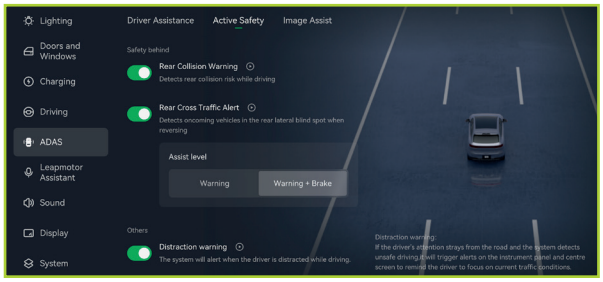

Cell-to-Chassis 2.0 integrates the battery into the vehicle structure, with intelligent monitoring and temperature regulation for enhanced protection.

Driver-Assistance Systems

A comprehensive range of driver-assistance technologies helps monitor surrounding traffic, road users and changing driving conditions. These systems provide timely alerts and assistance when required, adding another level of support to everyday driving.

Lane Centre Control and Intelligent Speed Assistance help you stay in lane and within speed limits.

Collision Warning, Rear Cross Traffic Alert and Distraction Warning help detect hazards and reduce accident risks.

Built-in 360-degree dashcam captures real-time footage, loop recordings and emergencies via exterior cameras using a USB thumbdrive.

The 540-degree camera with transparent chassis and 14.6-inch 2.5K screen makes parking easier in tight spaces.

MORE SPACE FOR EVERYDAY LIFE

The Leapmotor B10 eSUV combines a class-leading passenger cabin with flexible storage and carefully selected materials, creating an interior designed for daily commutes, family journeys and everything in between.

Largest Storage Capacity In-Class

With 456 litres of total storage capacity across the trunk and frunk, the B10 provides space for groceries, luggage, sports equipment and other family essentials. Flexible rear seating allows the cabin to accommodate larger loads whenever additional storage is required.

Largest Wheelbase In-Class

The B10's 2.74m wheelbase provides generous space across both rows. Rear passengers benefit from ample room to settle in comfortably, making the cabin suitable for short urban journeys and longer family drives alike. More room for every passenger.

Comfort for the Whole Family

Seven-layer bamboo-charcoal eco-leather seats made with baby-safe OEKO-TEX® materials provide comfort for the whole family.

A Brighter, Airier Ride

The 1.8m² panoramic roof creates a bright, open cabin, while the electric sunshade provides shade when needed.

Family Essentials Within Reach

Thoughtfully placed storage compartments keep drinks, devices and family essentials organised and easily accessible on every journey.

YOUR LEAPMOTOR B10, IN EVERY SHADE

Choose from a curated range of exterior and interior colours to match your personal style.
